*Did you expect more? Of course you did! However, you paid ~~\$1~~ \$0 and got at least what you paid for.*

Understanding that **YOU** are the **#1 resource** in Internet Marketer's tool kit empowers you to not fall victim to their fast talk and grand promises. Keeping this in mind any time you're tempted to buy another "easy money system" e-Book will save you hundreds, if not thousands of dollars in wasted money.

If someone would have slapped me around years ago and told me that I was the reason Internet Marketers were getting sales out of me, it would have saved me a lot of money and wasted time. Of course, if that would have happened, I wouldn't have been able to pass this valuable knowledge to you for the **ridiculously low price of ~~\$1~~ \$0**. ☺

## Disclaimer

Over the years, I have worked hard to learn about my market, how to cater to that market, and how to monetize that market. What I have shared in this book does outline how I've made thousands of dollars. However, in no way do I guarantee that you will make money online. The amount of money you make online is directly proportional to your level of effort and knowledge. The more you know and the harder you work at it, the more money you'll make.
